Parents And Community Together  
to reduce youth alcohol & drug use

**STRENGTHENING FAMILIES PROGRAM**  
By Dr. Harold Kopleff

### Did you know?

- Alcohol can “wire” a teens’s brain for addiction
- 45% of kids who begin drinking at age 13 will become alcohol dependent
- Marijuana use harms the developing brain
- Helping kids stay drug and alcohol free is a team effort

## Join us for an engaging Parent Cafe

How do drugs and alcohol affect the teen brain and what can we do now?

**Roosevelt Middle School**  
**Multi-Purpose Room**  
**Thursday, November 3**  
**6:30pm - 9pm**

Led by facilitators using a nationally recognized parenting and family strengthening program we will:

- *learn proven skills drawn from research and experience*
- *learn how marijuana and alcohol affect a teen’s developing brain*
- *learn important family protective strategies*

PLEASE RSVP TO [HTTP://TINYURL.COM/H8WNYQG](http://tinyurl.com/h8wnyqg)

This is a family event!  
Your middle school children are welcome. A light dinner will be served.
